### **Schneller Celebrates 40<sup>th</sup> Anniversary**

**Kent, Ohio, USA** – Schneller Inc., is commemorating its fortieth year as a global leader in the development and manufacture of engineered decorative laminates for transportation and architectural industries.

The company was founded in 1964 by John Schneller as a supplier of interior laminates for aircraft, beginning with the fabled Douglas DC-3 twin-engine airplane. Schneller today serves virtually all of the world's major aircraft manufacturers and airlines, rail car and architectural interior designers with trend-setting design, technology and manufacturing of decorative laminates and non-textile flooring.

In aviation and rail, Schneller helps major players enhance their brand image, create new interior ambiance, and improve passenger comfort and safety with innovative laminate products. In architectural applications, Schneller design and technology is expanding the visual impact of office interiors, retail displays and custom exhibits.

Schneller serves global customers from three strategic locations:
