mmiklos@schneller.com**Schneller Opens Major New Facility In Singapore**

Kent, Ohio, USA – Schneller, Inc. announces the opening of a new full-service global sales and support facility in Singapore, Asia.

Schneller Asia Pte Ltd. was opened in January, 2006 to provide complete sales and technical customer support and certification services - all part of its customized solutions in interior decorative laminates and non-textile flooring for the aviation industry.

Schneller, from its Kent, Ohio USA, headquarters, has been serving Asian-based airlines, maintenance facilities and component manufacturers for well over 20 years. Due to explosive growth in the Asian aviation market and to further its commitment to better serve the growing demands of this market the time had come for Schneller to open this regional, full-service facility.

“We’re pleased to be an integral part of and participate in the rapid expansion of this market. Customers may be assured that we will support their growth with an unmatched level of customer support and services from our new facility in Singapore,” explains Rick Organ, Schneller’s president and CEO.

Schneller is a principal supplier to numerous Asian carriers and aviation service companies including Air Asia, Cathay Pacific Airways, EVA Air, Korean Air, Malaysia Airlines, Singapore Airlines, AMECO - Beijing, GAMECO, HAECO, Jamco, and Koito.

Soon Schneller Asia will be celebrating another milestone in its short history as Singapore Airlines prepares to launch the much anticipated 555 seat double-deck Airbus A380 in the fourth quarter of 2006. Schneller has been selected to outfit the brand new aircraft fleet with interior decorative solutions for its entry into commercial service. Schneller Asia will take the lead in providing day-to-day logistical support and service.

Managing Director for the Schneller Singapore office is H.L. Tan. Joining him as manager of customer service is Mary Seah. Prior to joining Schneller Asia, Mr. Tan and Ms. Seah had founded West Pacific Aerospace, a company dedicated to the supply and service of an array of products to the commercial aviation industry.

Schneller Asia Pte Ltd. is located at 19 Loyang Way, #03-01, Singapore, 508724. Phone 65-6546-2272, Fax 65-6545-2272.
