**MATT MIKLOS NAMED GENERAL MANAGER
OF SCHNELLER TRANSPORTATION PRODUCTS GROUP**

Kent, Ohio, USA – Schneller, Inc., has announced that Matthew J. Miklos has been promoted to General Manager of the company’s Transportation Products Group. In his new position, he will be heading up global operations that supply [Indura™](#) interior decorative laminates to growing passenger rail car markets around the world.

Miklos joined Schneller in 2003 as Director of Market Planning and Development, bringing more than 17 years experience in marketing engineered materials. He was previously a Global Business Leader with LNP Engineering Plastics (a GE Plastics Company).

“Matt’s experience in strategic business and product development will significantly help us take our Railroad Products business to a new level, particularly in the high growth areas such as Asia and Europe,” said Richard C. Organ, Schneller President and CEO.

Miklos will be driving growth of the industry-leading [Indura GT](#) line of lightweight, flexible laminates that Schneller has developed for rail car interiors, providing exciting new design options in colors, patterns and textures, outstanding durability and easy to clean surfaces.

Indura GT laminates are easily customized to suit both new rail car designs and refurbishing programs, and they are formulated to meet strict regulatory requirements for low flame, smoke and toxicity.

Schneller is a global leader in the development and production of engineered decorative laminates and non-textile flooring for the transportation and architectural industries. Schneller provides custom design and color matching, material selection, continuous roll and sheet production from its ISO-9001 certified production facilities in Kent, Ohio and Pinellas Park, Florida with global sales and service support from its Paris, France facility. For more information, visit the company’s website at www.schneller.com.
